JUNE 2011

# Broadway Bulletin

## June Schedule:

As summer begins, construction in Forest Lake will continue. Below is a summary of what will be done in June:

**Bridge Work**—Pile driving and surcharge areas will continue. Crews will be working on bridge abutments, temporary ramps, and utility relocations.

**Backage Road (Extension of First Ave NW)**—Muck excavation is complete and crews are now working on storm sewer and grading. The backage road should be complete and open to traffic by the end of June. Most businesses on the north side of Broadway Avenue will have access to the backage road.

**Broadway Avenue**—Utility work continues on the north side of Broadway Avenue. The above-ground utilities will be buried in a joint trench, which will be located under the new sidewalk. Work on the actual roadway will begin when the backage road is open.

## Hardwood Creek Pedestrian Bridge:

On Friday, May 6, the Hardwood Creek Pedestrian bridge structure was assembled and lifted into place. This bridge now spans County Road 2/Broadway Avenue. In June, the trail will be paved, bridge railings and deck will be completed, and the walls will be painted. There is also a small amount of watermain work to be done. The bridge is expected to be complete and open to users of the Hardwood Creek Trail by the end of June.

## Neighbor Neighbor Meetings:

Every Thursday, Washington County hosts a meeting to inform any interested business owner, manager, or resident on the construction progress and upcoming schedule. There are also discussions on various marketing tools that businesses can use throughout construction. See the project website for specific dates, times, and locations of the meetings.

## 'Where's the Concrete Truck?'

Join The Forest Lake Area Chamber of Commerce and Washington County in supporting local Forest Lake businesses throughout construction. Every two weeks, a toy concrete truck is placed at a business along Broadway Avenue. Clues will be given to the whereabouts of the concrete truck. Your job is to find the truck—and support businesses along the way. To enter into the first drawing (held June 30), pick up a game piece at City Hall or print one from the website. For more details and to read past clues, visit the project website.
